TERMS AND CONDITIONS

After submitting your order form online, we will send you an official quote. This quote is in Canadian dollars CAD and is valid for a period of 30 days. When signed, this estimate serves as a contract and purchase order for this project. Subsequently, a first invoice equivalent to 33% of the total cost of the project will be sent to the customer. The date of the receipt of the first payment confirms the project and establishes the order of priority for manufacturing and delivery time. The first payment is NON-REFUNDABLE in the event of cancellation of the contract and constitutes acceptance of the quotation, as well as its Terms and Conditions. Additional fees may apply for any changes requested following the first invoice. A final invoice equivalent to 67% of the total cost of the project will be sent when the delivery date is confirmed. It will be payable before the goods leave the factory. Note that we prefer bank transfers to postal checks for speed and simplicity of processing.

IMPORTANT: Normal lead time is 8 to 12 weeks upon reception of the first payment.

- Delivery cost isn't included; it will be manually calculated according to the destination (from Drummondville, Qc), and added on the invoice. Delivery doesn't include unloading, which is the client's responsibility. The client needs to be equipped to unload long and heavy skids, ideally with a long fork equipped forklifts.
- The client is responsible for the installation. Technical sheets for installation will be sent by email before shipping in order to guide the installation team. It could require professional help like a landscaping team with small machinery because Eskair's products need to be solidly anchored in the ground.
- No concrete is necessary.
- The equipment is designed to be installed in a pit 6 in. (150 mm) deep, filled with 8 in. (200 mm) thick plant mulch. Most of the equipment comes with wooden frames that must be buried in the ground under the mulch. If your planned layout is different, it is important to let us know at the time of ordering to adapt the base of the equipment to your surface. Additional charges may apply depending on the request. Note that some products, as the Big whiteboard, sun shelters and some benches, cannot be installed on a hard surface such as asphalt or concrete. Contact us for more information.

I have read the terms and conditions and I accept them.

QUESTIONS OR SPECIAL INFORMATION:

If you have any questions about this purchase order, please contact:
Pascale Lépine, sales consultant, 819 472-6520 ext.2
